## Enrollment Increase

LCPCS is pleased to announce the enrollment of eight new pupils in the kindergarten class. They hatched on April 13, after a 21-day stint in Mrs. Mayo's classroom incubator. The challenge will be in teaching them not to peep while others are talking.

The kindergarteners have been enjoying a wide variety of chick-related writing, reading and science. "The children are SO excited," says Mrs. Mayo. "They can hardly sit still."
